About This eBook

The Master Key To Riches!
Jim Phillips (Ageless)

Some men seem to attract success, power, wealth, attainment, with very little conscious effort; others conquer with great difficulty; still others fail altogether to reach their ambitions, desires and ideals.

Why is this so?

Why should some men realize their ambitions easily, others with difficulty, and still others not at all?

The cause cannot be physical, else the most perfect men, physically, would be the most successful. The difference, therefore, must be mental - must be in the mind; hence mind must be the creative force, must constitute the sole difference between men. It is mind, therefore, which overcomes environment and every other obstacle in the path of men.

When the creative power of thought is fully understood, its effect will be seen to be marvelous. But such results cannot be secured without proper application, diligence, and concentration.

The student will find that the laws governing in the mental and spiritual world are as fixed and infallible as in the material world. To secure the desired results, then, it is necessary to know the law and to comply with it.

A proper compliance with the law will be found to produce the desired result with invariable exactitude. The student who learns that power comes from within, that he is weak only because he has depended on help from outside, and who unhesitatingly throws himself on his own thought, instantly rights himself, stands erect, assumes a dominant attitude, and works miracles.

It is evident, therefore, that he who fails to fully investigate and take advantage of the wonderful progress which is being made in this last and greatest science, will soon be as far behind as the man who would refuse to acknowledge and accept the benefits which have accrued to mankind through an understanding of the laws of electricity.

Of course, mind creates negative conditions just as readily as favorable conditions, and when we consciously or unconsciously visualize every kind of lack, limitation and discord, we create these conditions; this is what many are unconsciously doing all the time.

This law as well as every other law is no respecter of persons, but is in constant operation and is relentlessly bringing to each individual exactly what he has created; in other words, "Whatsoever a man soweth that shall he also reap."

Abundance, therefore, depends upon a recognition of the laws of Abundance, and the fact that Mind is not only the creator, but the only creator of all there is.

Certainly nothing can be created, before we know that it can be created and then make the proper effort. There is no more Electricity in the world today than there was fifty years ago, but until someone recognized the law by which it could be made of service, we received no benefit; now that the law is understood, practically the whole world is lit by it.

So with the law of Abundance; it is only those who recognize the law and place themselves in harmony with it, who share in its benefits.

The scientific spirit now dominates every field of effort, relations of cause and effect are no longer ignored.

The discovery of a region of law marked an epoch in human progress. It eliminated the element of uncertainty and caprice in men's lives, and substituted law, reason and certitude.

Men now understand that for every result there is an adequate and definite cause, so that when a given result is desired, they seek the condition by which alone this result may be attained.

The basis upon which all law rests was discovered by inductive reasoning which consists of comparing a number of separate instances with one another until the common factor which gives rise to them all is seen.

It is this method of study to which the civilized nations owe the greater part of their prosperity and the more valuable part of their knowledge; it has lengthened life, it has mitigated pain, it has spanned rivers, it has brightened the night with the splendor of day, extended the range of vision, accelerated motion, annihilated distance, facilitated intercourse, and enabled men to descend into the sea, and into the air. What wonder then that men soon endeavored to extend the blessings of this system of study to their method of thinking, so that when it became plainly evident that certain results followed a particular method of thinking it only remained to classify these results.

This method is scientific, and it is the only method by which we shall be permitted to retain that degree of liberty and freedom which we have been accustomed to look upon as an inalienable right, because a people is safe at home and in the world only if national preparedness mean such things as growing surplus of health, accumulated efficiency in public and private business of whatever sort, continuous advance in the science and art of acting together, and the increasingly dominant endeavor to make all of these and all other aspects of national development center and revolve about ascending life, single and collective, for which science, art and ethics furnish guidance and controlling motives.

"The Master Key To Riches" is based on absolute scientific truth and will unfold the possibilities that lie dormant in the individual, and teach how they may be brought into powerful action, to increase the person's effective capacity, bringing added energy, discernment, vigor and mental elasticity. The student who gains an understanding of the mental laws which are unfolded will come into the possession of an ability to secure results hitherto undreamed of, and which has rewards hardly to be expressed in words.

It explains the correct use of both the receptive and active elements of the mental nature, and instructs the student in the recognition of opportunity; it strengthens the will and reasoning powers, and teaches the cultivation and best uses of imagination, desire, the emotions and the intuitional faculty. It gives initiative, tenacity of purpose, wisdom of choice, intelligent sympathy and a thorough enjoyment of life on its higher planes.

"The Master Key To Riches" teaches the use of Mind Power, true Mind Power, not any of the substitutes and perversions; it has nothing to do with Hypnotism, Magic or any of the more or less fascinating deceptions by which many are led to think that something can be had for nothing.

"The Master Key To Riches" cultivates and develops the understanding which will enable you to control the body and thereby the health. It improves and strengthens the Memory. It develops Insight, the kind of Insight which is so rare, the kind which is the distinguishing characteristic of every successful business man, the kind which enables men to see the possibilities as well as the difficulties in every situation, the kind which enables men to discern opportunity close at hand, for thousands fail to see opportunities almost within their grasp while they are industriously working with situations which under no possibility can be made to realize any substantial return.

"The Master Key To Riches" develops Mental Power which means that others instinctively recognize that you are a person of force, of character - that they want to do what you want them to do; it means that you attract men and things to you; that you are what some people call "lucky", that "things" come you way' that you have come into an understanding of the fundamental laws of Nature, and

have put yourself in harmony with them; that you are in tune with Infinite; that you understand the law of attraction, the Natural laws of growth, and the Psychological laws on which all advantages in the social and business world rest.

Mental Power is creative power, it gives you the ability to create for yourself; it does not mean the ability to take something away from someone else. Nature never does things that way. Nature makes two blades for grass grow where one grew before, and Mind Power enables men to do the same thing.

"The Master Key To Riches" develops insight and sagacity, increased independence, the ability and disposition to be helpful.

It destroys distrust, depression, fear, melancholia, and every form of lack limitation and weakness, including pain and disease; it awakens buried talents, supplies initiative, force, energy, vitality - it awakens an appreciation of the beautiful in Art, Literature and Science.

It has changed the lives of thousands of men and women, by substituting definite principles for uncertain and hazy methods - and principles for the foundation upon which every system of efficiency must rest.

Elbert Gary, the chairman of the United States Steel Corporation, said "The services of advisors, instructors, efficiency experts in successful management are indispensable to most business enterprises of magnitude, but I deem the recognition and adoption of right principles vastly more importance."

"The Master Key To Riches" teaches right principles, and suggests methods for making a practical application of the principles; in that it differs from every other course of study. It teaches that the only possible value which can attach to any principle is in its application.

Many read books, take home study courses, attend lectures all their lives without ever making any progress in demonstrating the value of the principles involved.

"The Master Key To Riches" suggests methods by which the value of the principles taught may be demonstrated and put in actual practice in the daily experience.

There is a change in the thought of the world. This change is silently transpiring in our midst, and is more important than any which the world has undergone since the downfall of Paganism.

The present revolution in the opinions of all classes of men, the highest and most cultured of men as well as those of the laboring class, stands unparalleled in the history of the world.

Science has of late made such vast discoveries, has revealed such an infinity of resources, has unveiled such enormous possibilities and such unsuspected forces, that scientific men more and more hesitate to affirm certain theories as established and indubitable or to deny certain other theories as absurd or impossible, and so a new civilization is being born; customs, creeds, and cruelty are passing; vision, faith and service are taking their place. The fetters of tradition are being melted off from humanity, and as the dross of materialism is being consumed, thought is being liberated and truth is rising full orbed before an astonished multitude.

The whole world is on the eve of a new consciousness, a new power and a new realization of the resources within the self. The last century saw the most magnificent material progress in history. The present century will produce the greatest progress in mental and spiritual power.

Physical Science has resolved matter into molecules, molecules into atoms, atoms into energy, and it has remained for Sir Ambrose Fleming, in an address before the Royal Institution, to resolve this energy into mind. He says: "In its ultimate essence, energy may be incomprehensible by us except as an exhibition of the direct operation of that which we call Mind or Will."

Let us see what are the most powerful forces in Nature. In the mineral world everything is solid and fixed. In the animal and vegetable kingdom it is in a state of flux, forever changing, always being created and recreated. In the atmosphere we find heat, light and energy. Each realm becomes finer and more spiritual as we pass from the visible to the invisible, from the coarse to the fine, from the low potentiality to high potentiality. When we reach the invisible we find energy in its purest and most volatile state.

And as the most powerful forces of Nature are the invisible forces, so we find that the most powerful forces of man are his invisible forces, his spiritual force, and the only way in which the spiritual force can manifest is through the process of thinking. Thinking is the only activity which the spirit possesses, and thought is the only product of thinking.

Addition and subtraction are therefore spiritual transactions; reasoning is a spiritual process; ideas are spiritual conceptions; questions are spiritual searchlights and logic, argument and philosophy is spiritual machinery.

Every thought brings into action certain physical tissue, parts of the brain, nerve or muscle. This produces an actual physical change in the construction of the tissue. Therefore it is only necessary to have a certain number of thoughts on a given subject in order to bring about a complete change in the physical organization of a man.

This is the process by which failure is changed to success.

Thoughts of courage, power, inspiration, harmony, are substituted for thoughts of failure, despair, lack, limitation and discord, and as these thoughts take root, the physical tissue is changed and the individual sees life in a new light, old things have actually passed away, all things have become new, he is born again, this time born of the spirit, life has a new meaning for him, he is reconstructed and is filled with joy, confidence, hope, energy. He sees opportunities for success to which he was heretofore blind. He recognizes possibilities which before had no meaning for him.

The thoughts of success with which he has been impregnated are radiated to those around him, and they in turn help him onward and upward; he attract to him new and successful associates, and this in turn changes his environment; so that by this simple exercise of thought, a man changes not only himself, but his environment, circumstances and conditions.

You will see, you must see, that we are at the dawn of a new day; that the possibilities are so wonderful, so fascinating, so limitless as to be almost bewildering. A century ago any man with a Gatling Gun could have annihilated a whole army equipped with the implements of warfare then in use. So it is at present.

Any man with a knowledge of the possibilities contained in "The Master Key To Riches" has an inconceivable advantage over the multitude.

PART SEVEN - THE MASTER KEY TO RICHES

PART SEVEN

Through all the ages man has believed in an invisible power, through which and by which all things have been created and are continually being re-created. We may personalize this power and call it God, or we may think of it as the essence or spirit, which permeates all things, but in either case the effect is the same.

So far as the individual is concerned, the objective, the physical, the visible, is the personal, that which can be cognized by the senses. It consists of body, brain and nerves. The subjective is the spiritual, the invisible, the impersonal.

The personal is conscious because it is a personal entity. The impersonal, being the same in kind and quality as all other Being, is not conscious of itself and has therefore been termed the subconscious.

The personal, or conscious, has the power of will and choice, and can therefore exercise discrimination in the selection of methods whereby to bring about the solution of difficulties.

The impersonal, or spiritual, being a part or one with the source, and origin of all power, can necessarily exercise no such choice, but, on the contrary, it has Infinite resources at its command. It can and does bring about results by methods concerning which the human or individual mind can have no possible conception.

You will therefore see that it is your privilege to depend upon the human will with all its limitations and misconceptions, or you may utilize the potentialities of Infinity by making use of the subconscious mind. Here, then, is the scientific explanation of the wonderful power which has been put within your control, if you but understand, appreciate and recognize it.

One method of consciously utilizing this omnipotent power is outlined in Part Seven.

PART SEVEN

1. Visualization is the process of making mental images, and the image is the mold or model which will serve as a pattern from which your future will emerge.
2. Make the pattern clear and make it beautiful; do not be afraid; make it grand; remember that no limitation can be placed upon you by any one but yourself; you are not limited as to cost or material; draw on the Infinite for your supply, construct it in your imagination; it will have to be there before it will ever appear anywhere else.
3. Make the image clear and clean-cut, hold it firmly in the mind and you will gradually and constantly bring the thing nearer to you. You can be what "you will to be."
4. This is another psychological fact which is well known, but unfortunately, reading about it will not bring about any result which you may have in mind; it will not even help you to form the mental image, much less bring it into manifestation. Work is necessary - labor, hard mental labor, the kind of effort which so few are willing to put forth.
5. The first step is idealization. It is likewise the most important step, because it is the plan on which you are going to build. It must be solid; it must be permanent. The architect, when he plans a 30-storey building, has every line and detail pictured in advance. The engineer, when he spans a chasm, first ascertains the strength requirements of a million separate parts.
6. They see the end before a single step is taken; so you are to picture in your mind what you want; you are sowing the seed, but before sowing any seed you want to know what the harvest is to be. This is Idealization. If you are not sure, return to the chair daily until the picture becomes plain; it will gradually unfold; first the general plan will be dim, but it will take shape, the outline will take form, then the details, and you will gradually develop the power by which you will be enabled to formulate plans which will eventually materialize in the objective world. You will come to know what the future holds for you.
7. Then comes the process of visualization. You must see the picture more and more complete, see the detail, and, as the details begin to unfold the ways and means for bringing it into manifestation will develop. One thing will lead to another. Thought will lead to action, action will develop methods, methods will develop friends, and friends will bring about circumstances, and, finally, the third step, or Materialization, will have been accomplished.

8. We all recognize the Universe must have been thought into shape before it ever could have become a material fact. And if we are willing to follow along the lines of the Great Architect of the Universe, we shall find our thoughts taking form, just as the universe took concrete form. It is the same mind operating through the individual. There is no difference in kind or quality, the only difference is one of degree.

9. The architect visualizes his building, he sees it as he wishes it to be. His thought becomes a plastic mold from which the building will eventually emerge, a high one or a low one, a beautiful one or a plain one, his vision takes form on paper and eventually the necessary material is utilized and the building stands complete.

10. The inventor visualizes his idea in exactly the same manner, for instance, Nikola Tesla, he with the giant intellect, one of the greatest inventors of all ages, the man who has brought forth the most amazing realities, always visualizes his inventions before attempting to work them out. He did not rush to embody them in form and then spend his time in correcting defects. Having first built up the idea in his imagination, he held it there as a mental picture, to be reconstructed and improved by his thought. "In this way," he writes in the Electrical Experimenter. "I am enabled to rapidly develop and perfect a conception without touching anything. When I have gone so far as to embody in the invention every possible improvement I can think of, and see no fault anywhere, I put into concrete, the product of my brain. Invariably my devise works as I conceived it should; in twenty years there has not been a single exception."

11. If you can conscientiously follow these directions, you will develop Faith, the kind of Faith that is the "Substance of things hoped for, the evidence of things not seen"; you will develop confidence, the kind of confidence that leads to endurance and courage; you will develop the power of concentration which will enable you to exclude all thoughts except the ones which are associated with your purpose.

12. The law is that thought will manifest in form, and only one who knows how to be the divine thinker of his own thoughts can ever take a Master's place and speak with authority.

13. Clearness and accuracy are obtained only by repeatedly having the image in mind. Each repeated action renders the image more clear and accurate than the preceding, and in proportion to the clearness and accuracy of the image will the outward manifestation be. You must build it firmly and securely in your mental world, the world within, before it can take form in the world without, and you can build nothing of value, even in the mental world unless you have the proper material. When you have the material you can build anything you wish, but make sure of your material. You cannot make broadcloth from shoddy.

14. This material will be brought out by millions of silent mental workers and fashioned into the form of the image which you have in mind.

15. Think of it! You have over five million of these mental workers, ready and in active use; brain cells they are called. Besides this, there is another reserve force of at least an equal number, ready to be called into action at the slightest need. Your power to think, then, is almost unlimited, and this means that your power to create the kind of material which is necessary to build for yourself any kind of environment which you desire is practically unlimited.

16. In addition to these millions of mental workers, you have billions of mental workers in the body, every one of which is endowed with sufficient intelligence to understand and act upon any message or suggestion given. These cells are all busy creating and recreating the body, but, in addition to this, they are endowed with psychic activity whereby they can attract to themselves the substance necessary for perfect development.

17. They do this by the same law and in the same manner that every form of life attracts to itself the necessary material for growth. The oak, the rose, the lily, all require certain material for their most perfect expression and they secure it by silent demand, the Law of Attraction, the most certain way for you to secure what you require for your most complete development.

18. Make the Mental Image; make it clear, distinct, perfect; hold it firmly; the ways and means will develop; supply will follow the demand; you will be led to do the right thing at the right time and in the right way. Earnest Desire will bring about Confident Expectation, and this in turn must be reinforced by Firm Demand. These three cannot fail to bring about Attainment, because the Earnest Desire is the feeling, the Confident Expectation is the thought, and the Firm Demand is the will, and, as we have seen, feeling gives vitality to thought and the will holds it steadily until the law of Growth brings it into manifestation.

19. Is it not wonderful that man has such tremendous power within himself, such transcendental faculties concerning which he had no conception? Is it not strange that we have always been taught to look for strength and power "without?" We have been taught to look everywhere but "within" and whenever this power manifested in our lives we were told that it was something supernatural.

20. There are many who have come to an understanding of this wonderful power, and who make serious and conscientious efforts to realize health, power and other conditions, and seem to fail. They do not seem able to bring the Law into operation. The difficulty in nearly every case is that they are dealing with externals. They want money, power, health and abundance, but they fail to realize that these are effects and can come only when the cause is found.

21. Those who will give no attention to the world without will seek only to ascertain the truth, will look only for wisdom, will find that this wisdom will unfold and disclose the source of all power, that it will manifest in thought and purpose which will create the external conditions desired. This truth will find expression in noble purpose and courageous action.

22. Create ideals only, give no thought to external conditions, make the world within beautiful and opulent and the world without will express and manifest the condition which you have within. You will come into a realization of your power to create ideals and these ideals will be projected into the world of effect.

23. For instance, a man is in debt. He will be continually thinking about the debt, concentrating on it, and as thoughts are causes the result is that he not only fastens the debt closer to him, but actually creates more debt. He is putting the great law of Attraction into operation with the usual and inevitable result -- Loss leads to greater "Loss."

24. What, then, is the correct principle? Concentrate on the things you want, not on the things you do not want. Think of abundance; idealize the methods and plans for putting the Law of Abundance into operation. Visualize the condition which the Law of Abundance creates; this will result in manifestation.

25. If the law operates perfectly to bring about poverty, lack and every form of limitation for those who are continually entertaining thoughts of lack and fear, it will operate with the same certainty to bring about conditions of abundance and opulence for those who entertain thoughts of courage and power.

26. This is a difficult problem for many; we are too anxious; we manifest anxiety, fear, distress; we want to do something; we want to help; we are like a child who has just planted a seed and every fifteen minutes goes and stirs up the earth to see if it is growing. Of course, under such circumstances, the seed will never germinate, and yet this is exactly what many of us do in the mental world.

27. We must plant the seed and leave it undisturbed. This does not mean that we are to sit down and do nothing, by no means; we will do more and better work than we have ever done before, new channels will constantly be provided, new doors will open; all that is necessary is to have an open mind, be ready to act when the time comes.

28. Thought force is the most powerful means of obtaining knowledge, and if concentrated on any subject will solve the problem. Nothing is beyond the power of human comprehension, but in order to harness thought force and make it do your bidding, work is required.

29. Remember that thought is the fire that creates the steam that turns the wheel of fortune, upon which your experiences depend.

30. Ask yourself a few questions and then reverently await the response; do you not now and then feel the self with you? Do you assert this self or do you follow the majority? Remember that majorities are always led, they never lead. It was the majority that fought, tooth and nail, against the steam engine, the power loom and every other advance or improvement ever suggested.

31. For your exercise this week, visualize your friend, see him exactly as you last saw him, see the room, the furniture, recall the conversation, now see his face, see it distinctly, now talk to him about some subject of mutual interest; see his expression change, watch him smile. Can you do this? All right, you can; then arouse his interest, tell him a story of adventure, see his eyes light up with the spirit of fun or excitement. Can you do all of this? If so, your imagination is good, you are making excellent progress.

Study Questions with Answers - Part Seven

61. What is visualization?

The process of making mental pictures.

62. What is the result of this method of thought?

By holding the image or picture in mind, we can gradually but surely bring the thing nearer to us. We can be what we will to be.

63. What is Idealization?

It is a process of visualizing or idealizing the plans which will eventually materialize in our objective world.

64. Why are clearness and accuracy necessary?

Because "seeing" creates "feeling" and "feeling" creates "being." First the mental, then the emotional, then the illimitable possibilities of achievement.

65. How are they obtained?

Each repeated action renders the image more accurate than the former one.

66. How is the material for the construction of your mental image secured?

By millions of mental workers. Brain cells they are called.

67. How are the necessary conditions for bringing about the materialization of your ideal in the objective world secured?

By the Law of Attraction. The natural law by which all conditions and experiences are brought about.

68. *What three steps are necessary in order to bring this law into operation?*

Earnest Desire, Confident Expectation, Firm Demand.

69. *Why do many fail?*

Because they concentrate on loss, disease and disaster. The law is operating perfectly; the things they fear are coming upon them.

70. *What is the alternative?*

Concentrate on the ideals which you desire to see manifested in your life.
